

PUPIL COUNCIL
CREATIVITY LEARNING SURVEY
September 2019

Collated Results:

These will be used by the Pupil Learning Council to help adapt our way forward to embed Creativity as one of our key values in Glenurquhart Primary.

I want to find things out.

65 responses

I use what I know to help me understand new things.

65 responses

I can use things to help me research.

65 responses

I can make up good questions to find things out.

63 responses

I can make guesses as to what might happen.

65 responses

I can listen to others people's opinions.

65 responses

I am good at creating things.

65 responses

I've got good ideas.

65 responses

I can solve problems.

65 responses

I can learn from my mistakes.

65 responses

I can think of what I did well.

64 responses

I can set goals to help me get better.

64 responses

I am confident in my views.

65 responses

I am a responsible leader.

65 responses

I work well with others.

65 responses

I understand what 'Creativity' means.

65 responses

What does Creativity mean to you?

- being your self and expressing your self
- inventing things to help solve problems
- expressing yourself
- it means that you are expressing your self in multiple ways and to think more then just plain.
- that you can create something
- art and playing with toys or your friends or when you have to problem solve
- creativity means expressing your self in different ways or thinking new thing or ideas.
- artistic skills and also expressing yourself
- creativity means following your own path, making your own responsible choices, giving things a go, being imaginative and not being worried to ask questions that you're curious about
- using your mind
- Creativity to me means drawing, making things, inventing new games, writing stories, playing , and even thinking.

- Having imaginative ideas and using them.
- Making things, thinking differently, solving problems
- It means you can think of anything in anyway you want and see it diffret ways to make new things like inventions. Like thinking outside the box.
- using your imagination,being curious,problem solving and having a growth mindset.
- using your imagination to create stuff you think of.
- making your own things,
- making stuff and problem solfing because you have to think about it to get the anwser .
- It means I can think out of the box and also make things that I've never made before.
- doodels
- Colour.
- use your imagination, let it run wild and you can do ANYTHING!!!
- It means using your mind to think of ideas and using your imagation.
- creativity means anything you think of like when you make thing that's creativity.
- Using your imagination to make/think of new things.
- its a way of expressing your imagination.
- making your own new things and believing what i think
- it means that it makes the world fun,colourful and more interesting
- a way of using your imagination and developing new skills
- being able to answer questions creatively. making inventions. using your imagination
- it means fun
- Being yourself
- enjoying yourself
- That I don't have to be perfect in everything and in creativity it is very colourful
- Thinking out side the box.
- it means life
- that you can creat things.
- buiding,stories,imagination and more
- It means that your using your initiative and your thinking really hardly
- creativity means you can explore and adventure in a new world that you have made in your mind and can be anything you want.
- it means that I can make stuff up.
- it means you can create things and using your imagination
- Creativity means using your imagination to create things in your mind
- Creativity means having fun!
- exploring
- letting your mind run free and to make things that people probably have't done before.
- inventing
- inventing
- Creativity gives you the chance to draw, paint your ideas and let's you design what you are feeling.
- fun and a opportunity to let your mind go wild and express your imagination.
- It means you can draw any thing
- Is
Happy
- It means you can draw any thing
- It makes me very happy
- a lot
- crating good sculshrs
- it means being Creative
- Building things and creating things
- have fun and dror wot you wot.

- it means building things
- creating anything
- creativity is creating interesting things
- it means LIFE for everyone and animals, art, school and so on.
- It's fun its inventive it's creative

How do we show our Creativity?

- by making stuff and the way you dress
- ?
- in everything e.g writing, reading and drawing
- by making stuff or expressing it threw motion or by art or what ever you want.
- lots of ideas
- by making or disineing things
- you show creativity by making new things or expressing yourself.
- being confident and showing your skills
- we can show creativity by expressing ourselves, colouring in, drawing, asking questions, exploring and believing in ourselves
- by drawing or by making
- Thinking differently, making things, drawing and much more.
- By being yourself and creating things
- Making things, solving problems, thinking differently
- You can show creativity in many different ways. Such as work, making new things and subjects like Art and Programming.
- by creating new games,solving problems in maths and being curious about new subjects.
- by playing and drawing and making your own stuff you think of.
- by making posters or things
- making up your own games and art .
- By making posters to put in the school and we make power points to share with the school, and lot's of other things to.
- by drawing
- By thinking and colour.
- putting our minds to it and imagining amazing things!!
- By making drawings or having ideas for things.
- by drawing,writing,building,imagination and lots more
- By sharing your ideas or your creations with others.
- By coming up with new ideas.
- by respecting others opinions and believes
- by making things and saying our own opinion
- by saying what you think and using our imagination to create ideas
- we show creativity in art and in reading because we debate about what we read.
- by using it
- making a film together
- using colours
- by being yourself
- By creating stuff
- creating a world
- By creating master peases.
- exploring,thinking and more
- By using old stuff and making new stuff and trying hard and creating new things
- How you can show creativity is that you could draw,paint or make something that nobody else has or if somebody has you can make it your own.
- by pretending

- by making pictures and inventing things
- You can draw a picture or write a story
- You show creativity by learning from your mistakes.
- by using your mind
- by creating things with different materials and showing people what your imagination would be in real life.
- by using my mind
- using your imagination
- By taking something ugly or useless and making it pretty or useful.
- by using different materials and then show them.
- Using it
- I think it helps us learn creative by using lots of colour and thinking differently
- be colourful
- loads of imagination in your head and find colours in your head
- making things
- By creating things
- by talking
- loads of colours
- By using your brain
- we do drawing, art, and so on and also a couple more things
- by making stuff, creating baking, creating stories

Why might Creativity be important in life?

- if we didn't have creativity then the world would be boring
- if there was a problem you might use creativity to solve it
- if you don't have creativity you would not be able to design new things and be yourself
- it helps to get better ideas in life and helps your physical and mental health in life.
- when you are lost or stuck or had a fall out with friends
- creativity might be important because most jobs involve creativity so it's good to know what it is.
- we would not have all the amazing inventions we have today we would not have an imagination
- you can use creativity in problem solving and that is a big life skill and you can use creativity in exploring the world by being creative thinking where will you go next.
- because if creativity didn't exist the light bulb would not exist
- It is important because when we grow up we need to be independent and think differently.
- It can help you get a job be creative to find solutions to things in your work
- To help you learn new things
- If you don't use creativity you will be a bit like a robot. You would not think outside the box and won't come up with creative ideas. Creativity is also important in jobs.
- because without creativity life would be dull and boring
- because without it every thing would be boring.
- not sure
- because if we didn't have creativity there would be no games and no fun.
- If we don't have creativity in the world the earth would be very boring.
- if you are an artist
- Because no inventions will have been made like phones, TV's etc.
- if we didn't have creativity the world would be empty and we would have nothing to do all day and it would be boring!
- Because without it, nothing would really exist.
- if there was no creativity there would be nothing in the world creativity is how we build and how we live

- Creativity is important because without creativity there would be no cures for illnesses, there would be no houses, no food there would be nothing.
- if there was no such thing as creativity then we would have nothing and no new inventions
- the world would be boring and every thing would be the same
- because it makes life more interesting
- for survival, for problem solving and engineering our lives
- because without creativity we wouldn't have technology or art
- because it is yourself
- because you use your best skills
- because without it life would be boring
- because if there wasn't any creativity the world would be very boring and dull
- Other wise it would be the worst in history.
- problem solving
- So if you want to build big things.
- problem solving
- Because it helps you learn more stuff
- If creativity wasn't in life, life would not last very long because no one would be creative and find out how to make a fire to cook something in.
- because it would be boring if we didn't have creativity
- it is important in life because if you didn't have it in life the world will be boring.
- If you get stuck on something you can think of lots of different ways to sort it out.
- Because if we had no creativity life would be no fun.
- for inventing
- because it shows people's emotions through pictures
- for imagination
- because it would be boring
- because if the world didn't have creativity it wouldn't be interesting.
- so that life is not boring.
- You wouldn't be alive
- If we didn't have creativity life would be very boring we wouldn't have any technology or ideas or being a teacher or anything it would be very boring and I would not like it because we can't have any other or pens or anything and we wouldn't be alive we wouldn't have anything to express herself or anything to have.
- it made colour
- because there wouldn't be color in your head
- because if we did not have creativity there will not be fun there would just be boring stuff and teaching and if we do it wrong we would get really punished and if we don't have creativity we will not be able to make what we want.
- because you need creativity to have houses, schools and mostly everything that is man made.
- if we don't have creativity we will not be alive
- when you're older
- if there was no creativity there would be no inventions
- without it we would not be alive because things would not have been created.
- when you are making a cake, when you are doing drawings
