

— Be safe be seen

By the JRSOs

JRSO

How do we stay safe?

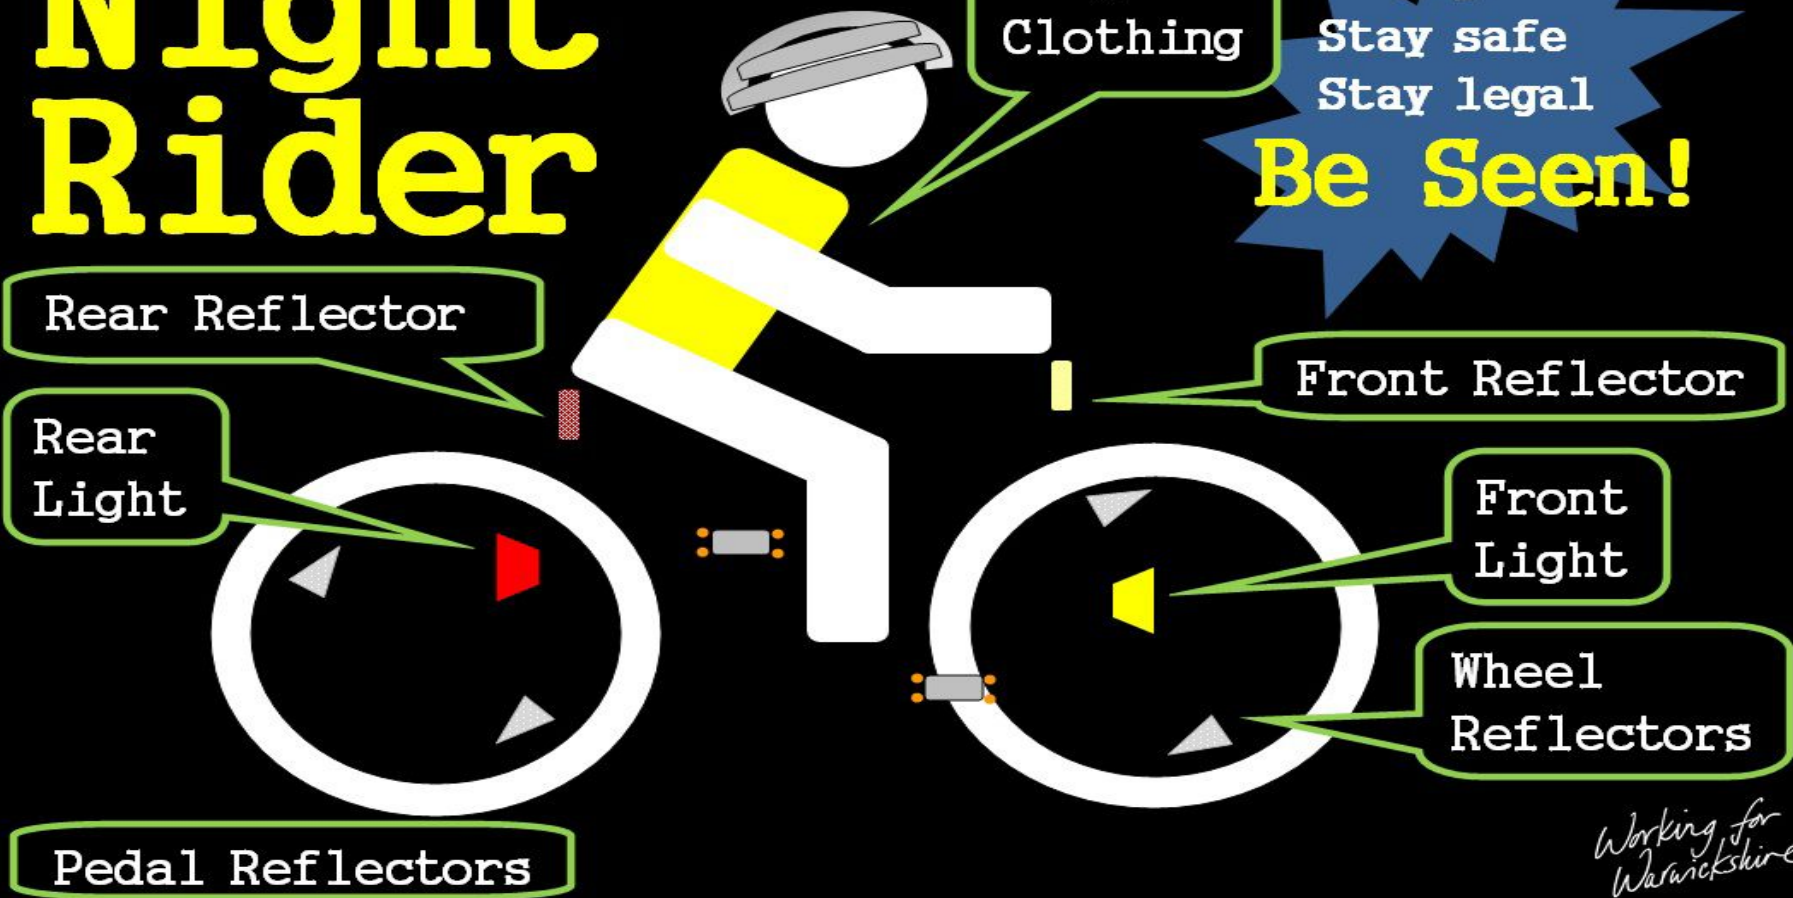

1. When you are walking in the dark near the road you should wear reflective and bright clothes.
2. Wear things like slap bands or high vis jackets.
3. Always walk on the pavement, and if you're still young then walk on the far side.
4. If you're on a bike or a scooter, make sure to be seen. You should put a reflector or a bright light on your bike and wear a high visibility jacket so the drivers can see you.

Bike safety

When you're riding a bike it is important to always wear bright clothing (and reflectors) so that cars and other vehicles can see you clearly, especially in the dark.
